

OBJECTIVE

This portfolio comprises a wide range of diversified investment vehicles including unit trusts, mutual funds and exchange traded funds (ETFs), whose managers aim to outperform their respective markets. Asset classes you could find in this portfolio are equities, government bonds, corporate bonds, alternatives, commodities and cash. Absolute return, multi-asset and property may all feature within the alternatives classification.

Active Adventurous seeks to generate strong capital growth over the long-term (7 years or more) and can experience potentially frequent and higher levels of volatility than Active Growth. The portfolio will have a large exposure to equities - typically comprising 90% equity and 10% non-equity - though weightings may deviate within set parameters, allowing managers to react to market conditions.
