

ADVENTUROUS (HIGH RISK) EUR MODEL PORTFOLIO

QUARTERLY FACTSHEET

31st MARCH 2025

OBJECTIVE

This portfolio comprises sustainable investment vehicles including unit trusts, mutual funds and exchange traded funds (ETFs), whose managers aim to outperform their respective markets. Asset classes you could find in this portfolio are equities, corporate bonds, alternatives, commodities and cash. Absolute return, multi-asset and property may all feature within the alternatives classification.

Sustainable World Adventurous seeks to generate strong capital growth over the long-term (7 years or more) and can experience frequent and higher levels of volatility than Sustainable World Growth. The portfolio will have a large exposure to equities - typically comprising 90% equity and 10% non-equity - though weightings may deviate within set parameters, allowing managers to react to market conditions.
