

Job Title: Investment Management Data & Systems Analyst

Company Description:

TAM Asset Management International is a dynamic and forward-thinking asset management company based in Mauritius. With a focus on providing innovative investment solutions to clients across Africa, Asia, and the Middle East, we pride ourselves on fostering a culture of growth, collaboration, and excellence. Our team is our most valuable asset, and we are committed to creating an environment where everyone can thrive and contribute to our continued success.

About the Role:

We are looking for a motivated Investment Management Data & Systems Analyst to improve data processes, support investment activities, and make operations more efficient. The ideal candidate will use their Excel and data skills to streamline workflows, help with investment execution, and ensure accurate reporting.

Key Responsibilities:

- Support daily investment activities like trade processing and updating positions.
- Automate tasks using VBA macros and develop workflows for data import, cleaning, and reporting.
- Use Power Query to extract, transform, and validate data from sources like custodian systems and databases.
- Help with data migration and work to improve data quality.
- Prepare and review fee and rebate calculations and reports.
- Create regular investment reports and fee/rebate summaries.
- Work with other departments to ensure data accuracy and smooth operations.
- Provide training on best spreadsheet practices.

What We're Looking For:

- Expert in Excel, including advanced formulas, Power Query, and Power Pivot.
- Experience creating VBA macros to automate tasks.
- Good understanding of financial data, investment processes, and reporting.
- Problem-solving skills to turn operational needs into technical solutions.
- Attention to detail, strong analytical skills, and good communication.
- Proactive attitude and eagerness to improve systems.

Preferred Qualifications:

- Degree in Data Analytics, Finance, Computer Science, or related field.
- Certifications in Excel Advanced studies and programming is helpful.
- Experience in finance, asset management, or investment operations is a plus.
